Education

Bachelor of Technology – ECE

CMR Institute of Technology | CGPA: 8.49 / 10

2022 – 2026

Hyderabad, India

Intermediate (MPC)

Sri Chaitanya Jr Kalasala | Percentage: 91.6%

2022

Hyderabad, India

Technical Skills

Languages: Java, JavaScript (ES6+)

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, RESTful API Design

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Vercel

Core Concepts: DBMS, OOP, Data Structures & Algorithms

Experience

Frontend Web Developer Intern

Jun 2025 – Oct 2025

Raise Digital

Hyderabad, India

- Developed **10+** responsive web components using **React.js, HTML5, CSS3** ensuring cross-browser compatibility.
- Optimized frontend performance using **code splitting and lazy loading** to improve page load performance.
- Integrated **5+** **RESTful APIs** with the backend team for efficient frontend data fetching.

Projects

AI-Powered Applicant Tracking System | [GitHub](#)

React.js, Tailwind CSS, Zustand, Puter.js

- Built a **React application** with Puter.js for authentication and storage.
- Integrated **AI-driven resume scoring** via Puter.js to analyze resumes against job descriptions, using **Zustand** for global application state.

Real-Time Chat Application | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Socket.IO

- Built a full-stack **real-time chat application** using React.js, Node.js, Express.js, MongoDB, and Socket.IO.
- Implemented **real-time messaging and online user presence** using Socket.IO for bidirectional client-server communication.
- Implemented **JWT-based authentication** with bcrypt password hashing and protected API routes.
- Designed **MongoDB message schemas** and indexing for efficient chat history retrieval.

ShopMyUniform – AI E-Commerce Platform | [GitHub](#)

Node.js, Express.js, MongoDB, Gemini API

- Built a **full-stack MERN e-commerce platform** for school/college uniform shopping with school-based catalogs, cart, checkout, and order tracking, secured with **JWT-based authentication** and deployed using **Vercel and Render**.
- Implemented backend functionality with **Node.js, Express.js, and MongoDB** for product, user, cart, and order data management.
- Designed an **AI customer-support agent** using **Google Gemini** with a tool-calling architecture, answering product, sizing, delivery, and order queries by querying live MongoDB data rather than hardcoded responses.

Certifications

- SQL – HackerRank:** Cleared advanced SQL certification demonstrating strong skills in complex queries, joins, and data manipulation.
- Java Programming – University of Helsinki (MOOC.fi):** Gained strong foundation in Java, OOP concepts, and problem-solving.
- MongoDB – GeeksforGeeks:** Learned NoSQL concepts including schema design, CRUD operations, and data handling.
- Exploratory Data Analysis – IT-ITeS SSC/NASSCOM:** Gold assessment certification (**72%**).
